IBS Security Ltd - HQ

IBS Security Ltd. - HQ

The supply of physical and technical protection of objects in our company offers the following services: Physical protection of facilities with static security guards and security guards – receptionists. When persons entering the protected zone, first come in contact with security guards – receptionists, which means that the security guard – receptionists is mirror of the entire company. From our staff, therefore is required orderliness, communication skills, friendliness and professionalism.

CP Team – Training

CP Team – Training

Mobile security guards – patrols and intervention unit are carried out by the best trained men in the Section of physical protection of facilities. Facilities are protected also in operational – prevention ways, which means that our security guards develop a genuine and friendly relationship with nearby residents both in terms of protection of buildings to obtain a number of allies who finally established presence in the area of the protected

zone. We have authorization number 8450 – 61/2007 – 4 issued by the Ministry of Defense for the carrying out Fire Protection Prevention.

PHYSICAL PROTECTION OF PROPERITY - Physical security of the facility may be implemented through security guarding service, the intervention unit or permanent present static security guards at the protected site. How to carry out physical protection depends on the security plan, which is prepared on the basis of threat assessment. Without any physical protection of technical protection facilities may not be 100 percent effective.

Close Protection

Public Gatherings

CLOSE PROTECTION

Close Protection is covered by a specific set of security measures within the operational preventive physical and personal security. IBS Security Ltd., has the License for Close Personal Protection [Certificate No. 2510 - 27/2007/7](#) issued by Ministry of Internal Affairs of the Republic of Slovenia in May 2007.

PROTECTIVE INTELLIGENCE – Section is running and executing preventive and operational protection of persons. The main task of the section is preparation of threat assessments, risk assessments and security vulnerability surveys. On the basis of threat assessment and in accordance with a set of measures, protection of the person is planned.

Residential Security

Close Protection

Threat assessment is prepared on the basis of all available information it can obtain from various open sources, clients, with its own activity, enhanced the implementation of direct physical protection and in collaboration with external partners e.g. detectives, police and other governmental institutions. As a part of the planning, section hedging to ensure optimum safety of protected persons, and plans to provide those security measures that are necessary to ensure the safety of specific individuals.

PHYSICAL PROTECTION OF PERSONS – We offer a wide range of security services, including: Operational preventive protection: our experts in conjunction with external reference companies and detective services, assess the actual security threats, and give an opinion on the urgent security measures necessary to ensure the integrity of personality parties.

IBS Varovanje d.o.o. – HIGH RISK

IBS Varovanje d.o.o. – HIGH RISK

Israeli Team - Close Protection

Protection of Embassies

Protection of Business Meetings – Employees in our company, together with external collaborators, have extensive experience in the field of security protection of persons and facilities. Most of these experiences we have gained by participating in the planning, management and implementation of hedging domestic and foreign protected persons with the highest risk, which individuals in the company gained while working in the Office of Safety and Security inside the General Police Directorate.

Organization and protection of business or social events, VIP parties, may include the following measures: transport with our / your vehicle to the chosen location and back; counter surveillance review of the facility; covert transportation with our / your vehicles to the selected secret locations and back; covert physical –

technical protection of the facility or person; operational – preventive actions; organization of the entire Social Meeting.

PROTECTION OF PUBLIC EVENTS AND MEETINGS

To ensure the safety of these events, we have a combined group of our most experienced and skilled security guards. In cooperation with the Communication and event management agency Artizana d.o.o, FUTURA DBV and other, which is our business partners, we can organize and prepare the entire event logistics.

SECURITY PLANNING

“Security plan” is a document which contains an assessment of the degree of risk and physical security plan. Assessment of the degree of risk is a document that serves as the basis for the security plan with the system of physical and technical protection and defines the scope of protection and security needs.

Israeli Team - Close Protection

Israeli independent day - 2008

We first precisely identify needs of each customer and establish security system which is the most effective for each customer. Basic rule is that the system must be adjusted to provide the optimum level of safety and security. We also maintain regular cooperation and information flow with our customers.

Physical security plan is a dynamic document that changes, complements and builds in accordance with the evaluation of the degree of risk. It must be constructed in a way that the measures are suited to the overall assessment of the degree of risk. We also offer security a consultation at strategic and operational level. Our company has in the private security services market excellent references, reputation and confidence of our services. The reason for that is our approach to the projects with a multidisciplinary collaboration with renowned experts in the field of safety and security and safety companies.

In addition to Head of section Analysis and Assessments in our company finished College of Police and Security Studies, gained Postgraduate Specialist Degree in Business Security Management and University Degree in Criminal Justice and Security so we can offer very comprehensive range of other security related tasks like Analysis and Assessments of Data, Threat Assessment Evaluations, Security Vulnerability Surveys, Physical Security Plans, Protective Intelligence, Airport Security, Embassy Security, Crowd Management, Security Consultancy, Antiterrorism, Counterterrorism.

COUNTER EAVESDROPPING

Counter Eavesdropping are passive or active measures taken to protect sensitive or commercially valuable information from electronic or physical eavesdropping.

PRIVATE INVESTIGATOR SERVICES

In cooperation with the reference detective agency "Detective BIRO" We can gather information for you.

In collaboration with the French company TRCOM, of course, with the permission of the Ministry of Defense, we provide the highest possible level of service protected and secure communications (CRYPTO SMART).
